

1851 TRUST > Roadshow

Birmingham, Friday 29 June 2018

“ I’ve never done something like this before, it has been such a great day. I was scared before I went on the boat, I didn’t want to fall in the water! But I had such a good time and want to do it again. ”
Pupil, Bishop Challoner Catholic College

Highlights

- 1851 Trust’s first Next Generation Roadshow in Birmingham was well supported by local schools.
- Young people aged 10-15 joined in the exciting onshore and sailing activities.
- Volunteers from the STEM Ambassador network and Birmingham University supported the Roadshow.
- For nearly all the young people, this was their first on-the-water experience.

100%

of teachers would recommend the Roadshow to a friend or colleague

100%

of teachers said the visit engaged their pupils

100%

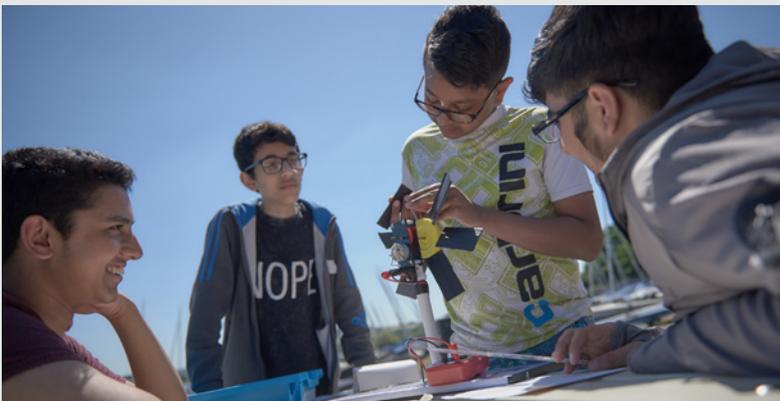

of teachers said the workshops enriched their curriculum in a good or very good way

6 schools

95 students

Overview

- The 1851 Trust is a dynamic and innovative education charity committed to inspiring young people to become innovators of the future.
- Inspired by Sir Ben Ainslie's challenge for sailing's America's Cup and using materials from Lloyd's Register Foundation, young people have a unique opportunity to take part in a range of hands-on STEM activities.
- As well as these fun, educational activities, the young people all love the opportunity to put their learning into practice sailing dinghies. For most, this is their first experience out on the water!
- The Next Generation Roadshow programme sits alongside the 1851 Trust's Go Sail and STEM Crew projects.

“ Our students have been engaged from start to finish. The activities were the perfect mix of theory and practical with fun hands-on activities. The children have thoroughly enjoyed everything on offer today. I would love to get the pupils into sailing once we're back at school, I didn't even realise these facilities were here! ”

Teacher, Cofton Primary School

“ The day was well organised, fun, practical and memorable. For some of our students, a once in a lifetime opportunity to go sailing. I particularly loved Olympian Annie Lush's input during the day as she is an absolute inspiration to all children but particularly our girls. Events like this are so important to encourage girls as well as boys to participate in STEM activities- often thought as more for boys than girls. An outstanding day! ”

Teacher, Cofton Primary School

How you can help

Our Roadshows are helping to break down barriers and provide unique opportunities to young people. By being accessible to all, we are:

- Inspiring more young people to imagine an exciting future in technology and engineering.
- Opening up the world of sailing to those who wouldn't normally have the chance to get out on the water.
- Creating an environment where young people can engage with science and engineering outside a traditional learning space.

There is no charge to participants to attend any of our Roadshows but we do need to raise funds to keep this opportunity available to all. If you or your organisation can help us reach more children in 2019, please contact: Rebecca.Saunders@1851trust.org.uk

Schools which supported the event

- Kings Heath Boys School
- Bishop Challoner Catholic College
- Tile Cross Academy
- Cofton Primary School
- Bishop Ullathorne Roman Catholic School
- Abbey Catholic Primary School
