

# 1851 TRUST > Roadshow

## Nottingham, Thursday 28 June 2018

“ Thank you for the opportunity of taking part with the 1851 trust workshop on 26/06/18. I had a lot of fun understanding how much work it takes building a boat. My favourite part was the sailing. I made lots of new friends from other schools. Again, thank you for allowing our school to participate. I would love to do it all over again. ”

**Pupil, Magnus Academy**

## Highlights

- 1851 Trust's first Next Generation Roadshow in Nottingham was well supported by local schools.
- The event was supported by the Benoy Foundation who sponsored Magnus Academy to take part in the day.
- Lloyd's Register Foundation joined us for the day to experience how their blue prints are being applied to the Roadshow workshops.
- Young people aged 10-15 joined in the exciting onshore and sailing activities.

# 66%

of teachers would recommend the Roadshow to a friend or colleague

# 85%

of teachers said the visit engaged their pupils

# 95%

of teachers said the workshops enriched their curriculum in a good or very good way

# 5 schools

# 100 students

## Overview

- The 1851 Trust is a dynamic and innovative education charity committed to inspiring young people to become innovators of the future.
- Inspired by Sir Ben Ainslie's challenge for sailing's America's Cup and using materials from Lloyd's Register Foundation, young people have a unique opportunity to take part in a range of hands-on STEM activities.
- As well as these fun, educational activities, the young people all love the opportunity to put their learning into practice sailing dinghies. For most, this is their first experience out on the water!
- The Next Generation Roadshow programme sits alongside the 1851 Trust's Go Sail and STEM Crew projects.

“ All the staff and volunteers were very friendly and helpful, they were fantastic at engaging the students in the activities. The day was such an excellent opportunity for our pupils and they all learned new skills. I thought it was great the team highlighted to students the range of possibilities in STEM careers. ”

## How you can help

Our Roadshows are helping to break down barriers and provide unique opportunities to young people. By being accessible to all, we are:

- Inspiring more young people to imagine an exciting future in technology and engineering.
- Opening up the world of sailing to those who wouldn't normally have the chance to get out on the water.
- Creating an environment where young people can engage with science and engineering outside a traditional learning space.

There is no charge to participants to attend any of our Roadshows but we do need to raise funds to keep this opportunity available to all.

If you or your organisation can help us reach more children in 2019, please contact: [Rebecca.Saunders@1851trust.org.uk](mailto:Rebecca.Saunders@1851trust.org.uk)

## Schools which supported the event

- Merrill Academy
- Magnus Academy
- George Spencer Academy
- Carre's Grammar School
- Hanson Academy
